# WHAT IS MINTHUB?

# Minthub.AI is a revenue share crypto advertising platform.

## WHAT IS MINTHUB?

Google, Facebook, TikTok, Adult Entertainment, Mainstream Media, Minthub. We all have one thing in common. Provide a free platform and with the mass reach, sell advertising spaces to companies/individuals.

## GAP IN THE MARKET

There is a massive gap in the market

If you think search engine, you think Google.

If you think videos, you think YouTube.

They both sell advertising spaces but are too strict for crypto-related products.

If you're looking to advertise crypto products, you think...?

## MINTHUB!

Last year alone, \$223 Million was spent *just* on TV advertisements for Crypto Related products. The number is far greater through all advertising channels.

With regulations becoming extremely tight for advertisers, we have decided to build a decentralized crypto-focused advertising platform where the Minthub community can also benefit by simply clicking the ads to earn tokens.

Advertisers spend billions of dollars annually when you use free platforms, and it is time YOU earn a share of that revenue!

# HOW IT WORKS

## PHASE 1

Our first phase is community-building. We have partnered up with some large crypto influencers who will promote our coin.

The private sale starts at \$0.005 and the listing price (public sale) will be \$0.15.

This builds the community and locks in shares for private sale investors.

## PHASE 2

MintHub will become a completely free crypto entertainment news channel that will provide valuable insight into the market. This keeps users engaged and on MintHub.

## PHASE 3

With all this attention, we will market products and accept advertisers who will promote their own products. Advertisers will pay-per-view, pay-per-click, and pay-per-lead.

The MintHub community will receive a financial incentive for viewing ads, clicking ads, and submitting their information on ads

# UNIQUE REVENUE SHARE (MINTING) CONCEPT

## Revenue Distribution

At the end of the private sale, your shares are locked based on how many Minthub tokens you have.

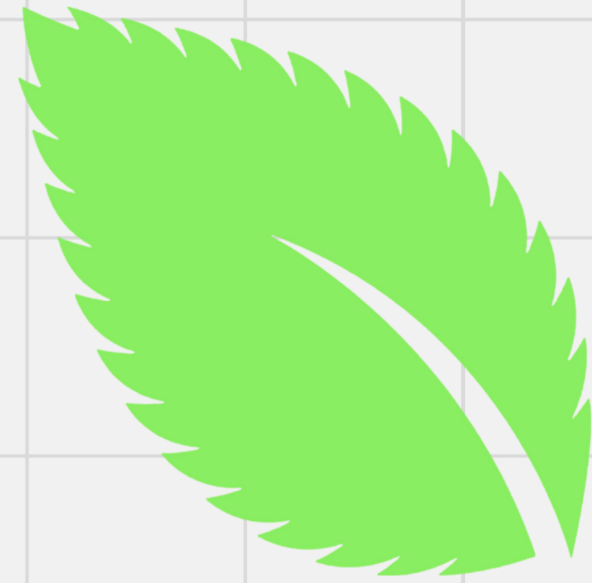

Every time Minthub earns a revenue, shares will be distributed into your wallets.

The more Minthub Tokens you purchased in the private sale phase, the more revenue you receive from the Minthub Community.

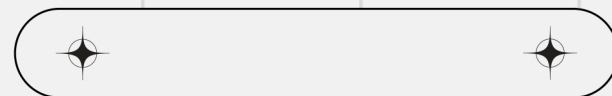

What makes our minting concept unique is that it should continuously grow on a permanent basis as the revenue for Minthub climbs. Every private sale investor can truly earn a significant margin on their investment.

On top of this, with the significant use of Minthub tokens, the price per token can rise astronomically due to the mass public attention!

# TOKENOMICS

**PRIVATE SALE STARTS**  
\$0.005

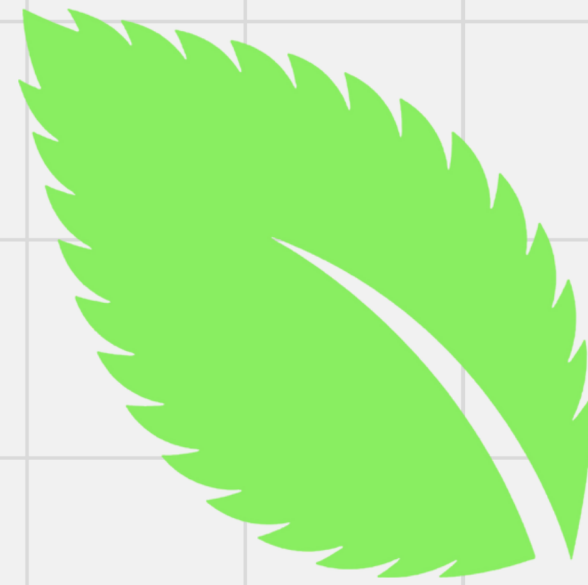

**PRIVATE SALE ENDS**  
\$0.15

**LISTING PRICE**  
\$0.15

**TOTAL SUPPLY:** 1,000,000,000

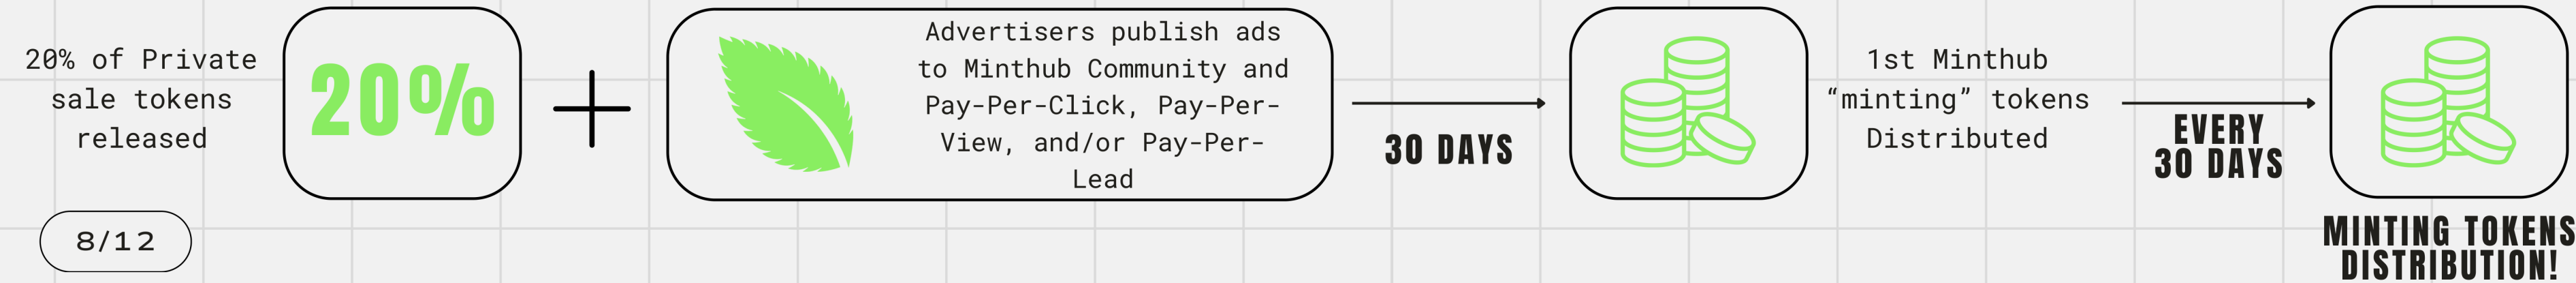

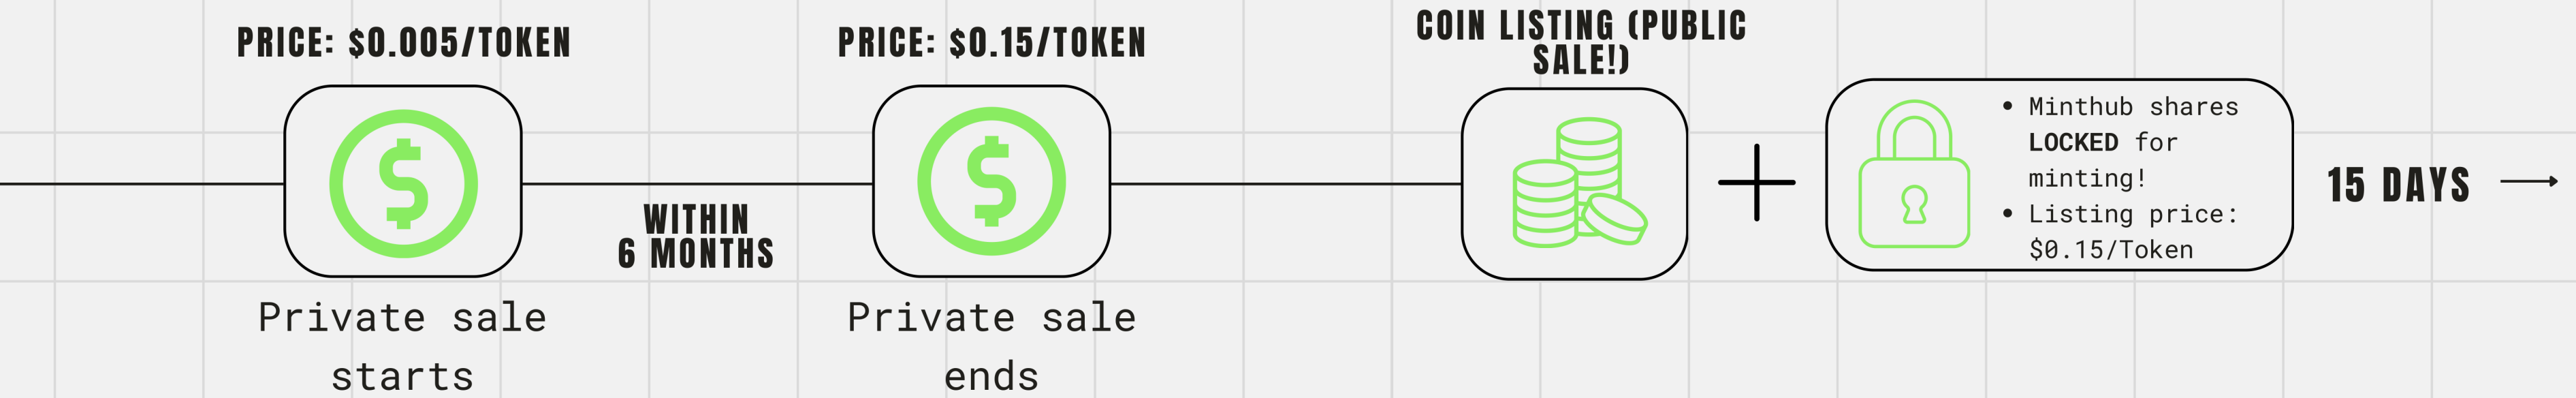

# ROADMAP

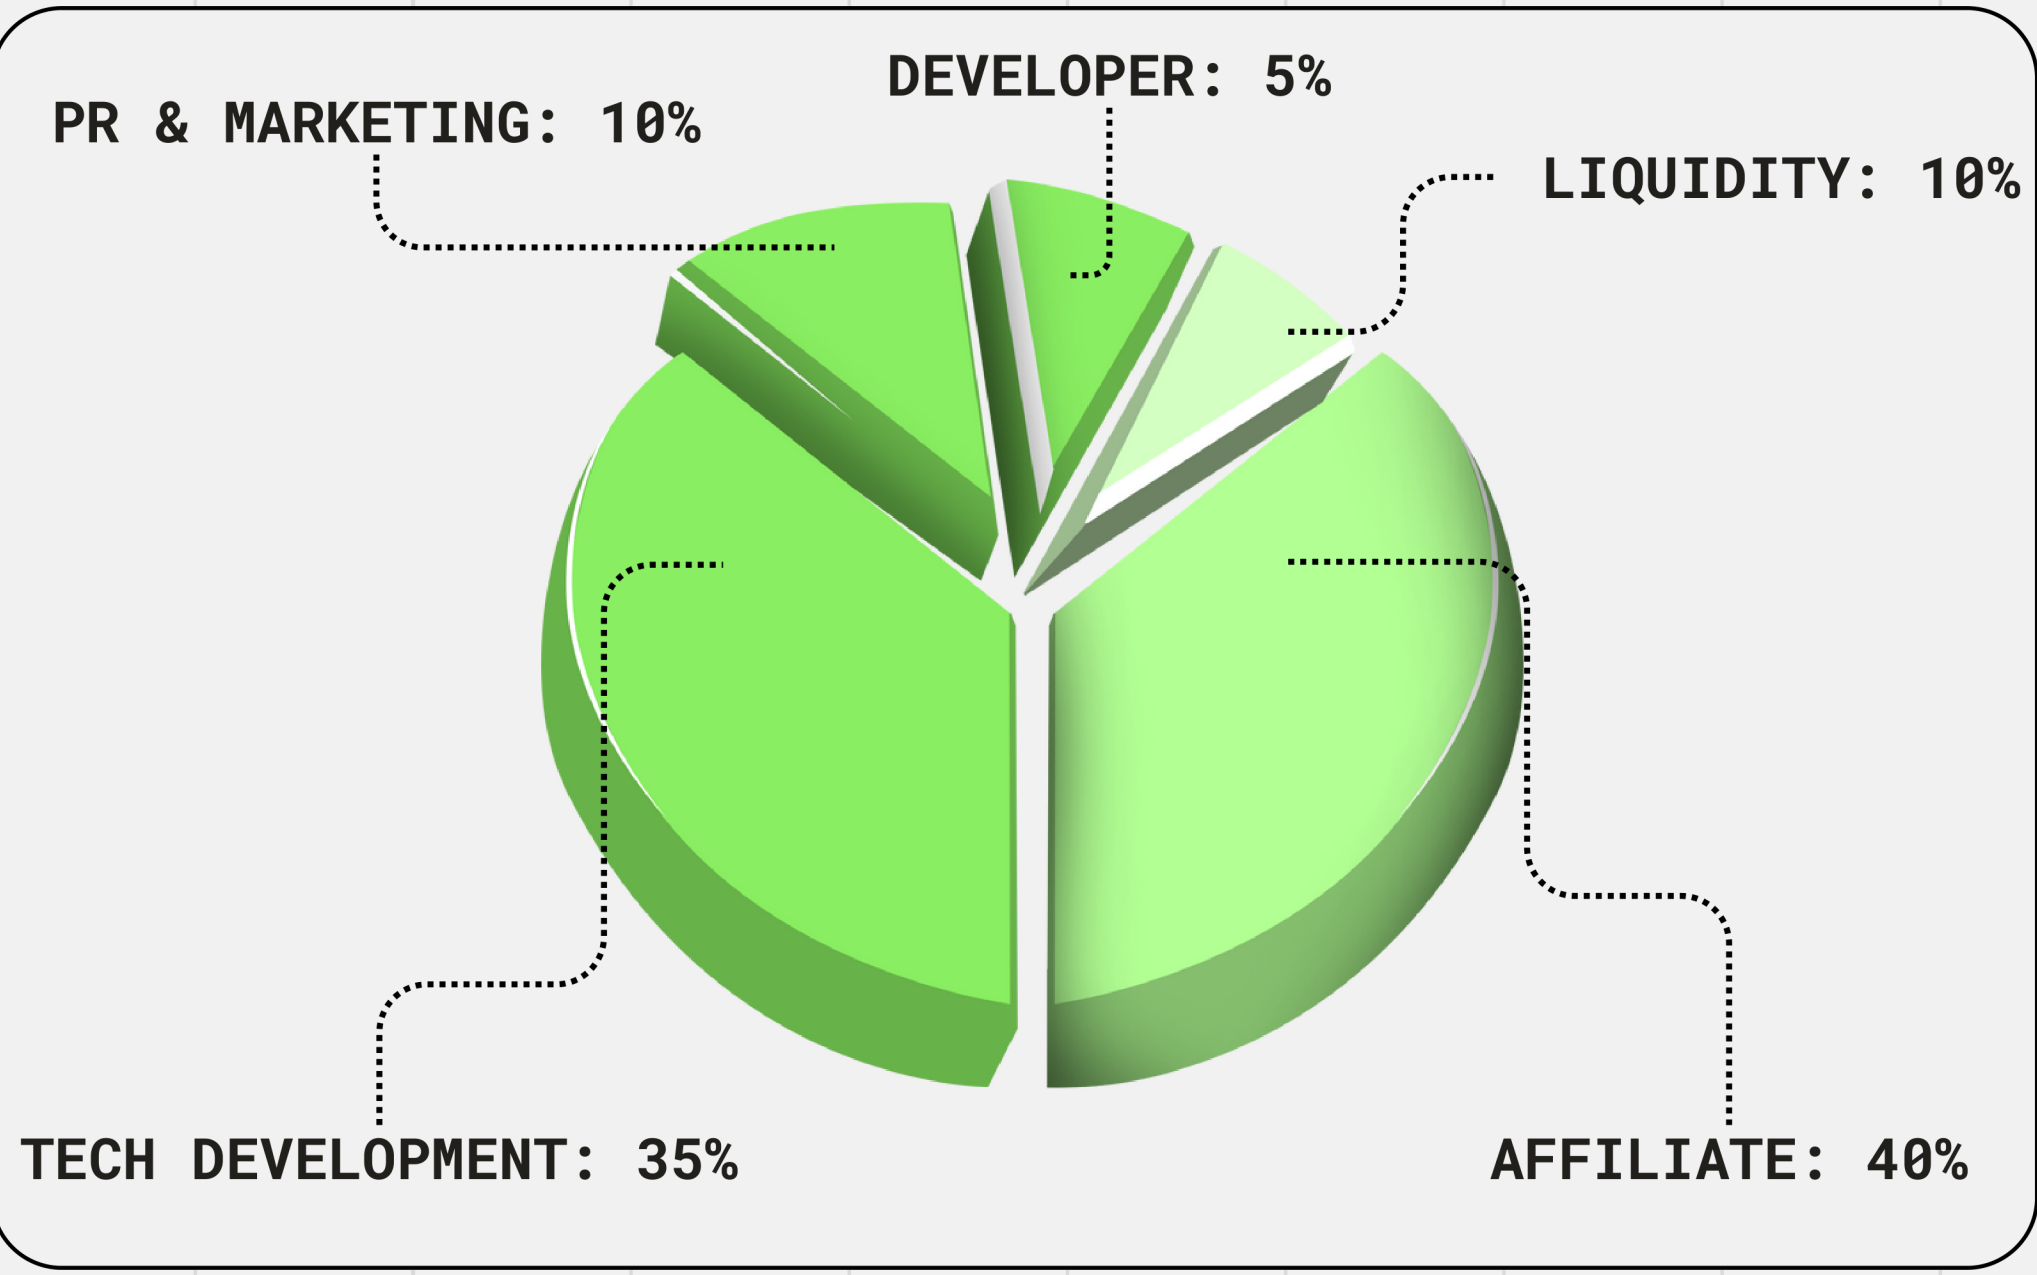

# COIN DISTRIBUTION PLAN

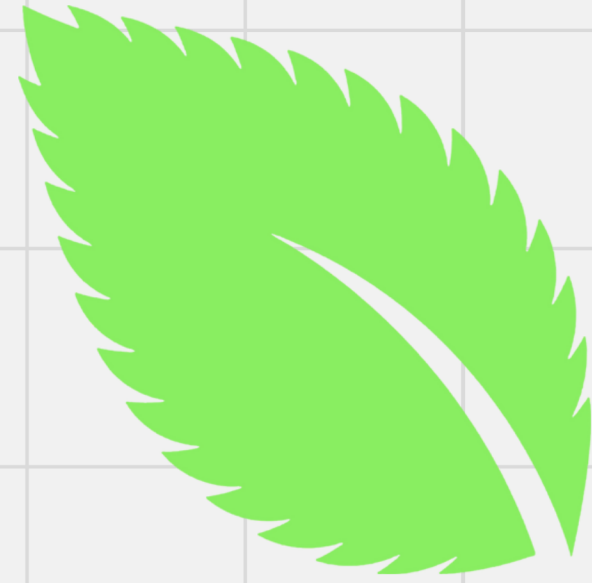

# COIN DISTRIBUTION PLAN

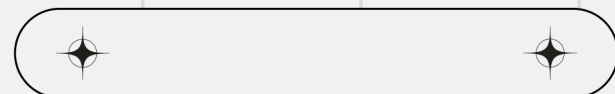

Many coins will spend the majority of their funding on marketing. We would rather reward you for token sales you bring. This creates a guaranteed return on our side.

Tech Development is a hefty cost to create a quality system to run the Minthub ecosystem and make constant improvements. PR & Marketing will go towards large press releases with authentic financial news media conglomerates.

# COMMISSION STRUCTURE

# COMMISSION STRUCTURE

For exclusive commission, register a free Cryptonaire Network account and purchase Cryptonaire Accelerator™ for 97 USDT. You will additionally receive 50USDT in Minthub Tokens for free!

LEVEL	COMMISSION (20% TOTAL)	EXCLUSIVE COMMISSION (40% TOTAL)
